”

NARESH BETALA

-GROWTH-

WE DELIVER Quality

Our Both units are **ISO 9001:2015** and **ISO 15378:2011** certified. We have recently submitted DMF for Rigid Pvc Films with **US-FDA (DMF No. 032738)**. Our company has also received **Quality Mark Awards** in the year 2015 in Plastic & Packaging Category.

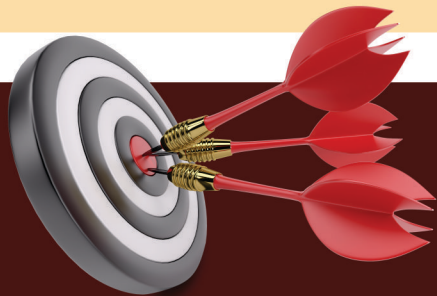

Vision

To provide quality services that exceeds the expectations of our esteemed customers.

Mission Statement

To build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology.

Goals

Diversification in the packaging Industry and develop strong base of key customers. Increase the assets and investments of the company to support the development of services. To build good reputation and become a key player in the industry.

FEATURES

We only use Virgin Prime Grade Raw Material specifically of companies approved with FDA and FSSAI compliances. Eg. Reliance, ASPET, Indorama, Clariant, etc.

We have machines installed of one of the most trusted suppliers in the world Eg. ASB, Ferromatic, Chicago Pneumatic, Thermax, Conair, ACME, Steelmades.

Manpower with over 20 years experience in Plastic Industry.

Continuous Offline and Online Quality Check of all Inward and Outward Raw Material and Finished Goods.

BENEFITS

Results in High Finish, Shine, Clarity, Odourless and Low Aldehyde content in our Finished Product.

It helps us in consistent and precision manufacturing of our Final Product. Also with their continuous breakdown free running we are able to give prompt and rejection free product delivery to our customers.

Their rich Machine, Product and Industry knowledge gives us benefit in delivering products full filling customers requirement at the minimum cost with best utility.

Assuring consistent product and delivery to customer with least faults.

Our Product

Pet Bottles & Preform

All our Bottles and Preforms are made of PET, which stands for Polyethylene Terephthalate, which is a form of polyester (just like the clothing fabric). PET is type of plastic labeled with the #1 code on or near the bottom of bottles and containers.

We have **Bottles available from 30ml to 450ml** and **Preforms from 28mm to 120mm**, available in both transparent and opaque colours. We also custom develop Bottles and Performs as per customers' requirement of any size, shape and colour.

Our MATERIAL SPECIALTY

Our Product

Rigid PVC Film

Our films are made of Polyvinyl Chloride (PVC), which is one of the most commonly used thermoplastic polymers in the world. Several simple properties have made PVC invaluable as one of the key plastics used in modern day packaging to protect and preserve products. Our Films are further processed through Thermo/Vacuum Forming for different packages.

We manufacture film of **Width upto 1200mm** and **Thickness from 0.08mm to 0.80mm**, available in both transparent and opaque colours.

Our MATERIAL SPECIALTY

- High chemical stability
- Biocompatibility
- Good Tensile Strength
- Excellent Transparency
- Non-Toxic and Food Grade
- Excellent Oxygen and Water barrier properties.
